

Jurong East, Singapore

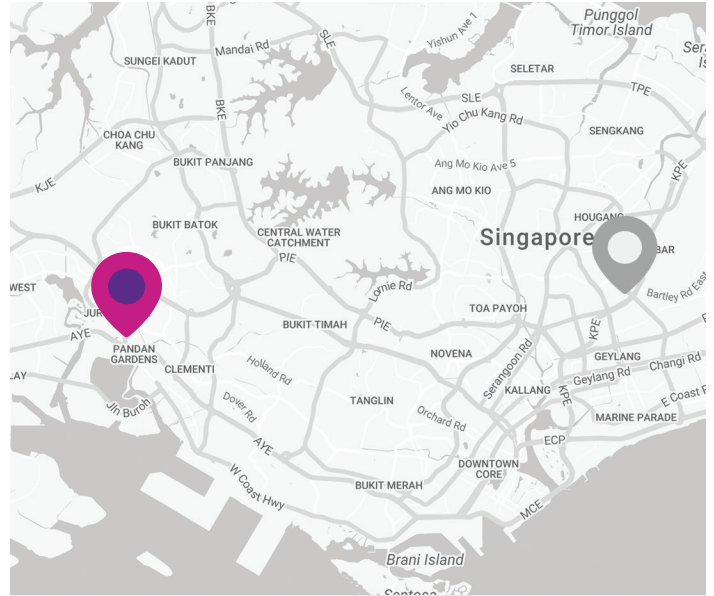

MARKET SUMMARY

Through two Singapore data centers, data moves securely among the most active finance and trade centers in North America, Asia and Europe.

The Singapore data centers support ultra-low latency colocation and proximity hosting. One-way connectivity to the Singapore Exchange and access to leading network provider connects clients to Tokyo, Hong Kong, Chicago, New York and London financial markets.

Together, the Singapore colocation facilities provide more than 8,250 square meters of premier data center space built to handle stringent enterprise network needs and financial grade multi-tier security requirements. Companies have access to a full suite of network, cloud and managed hosting providers. Cyxtera offers total reliability supported by 100% power uptime SLAs.

29A Intl. Business Park, Jurong East, Singapore 609934
