

LAX2 Campus Specifications

Burbank, California

MARKET SUMMARY

The Cyxtera Los Angeles data center campus provides carrier neutral connectivity, rigorous critical systems infrastructure and multi-tier security.

The adaptable Los Angeles campus supports the network and storage requirements of a burgeoning media, technology manufacturing and aerospace markets. This is possible due to the full complement of colocation coupled with access to public cloud, private cloud and managed service providers from over 200,000 square feet of raised floor space.

DATA CENTER CAMPUS SUMMARY

Located in the media and entertainment capital of the world, our two-story Burbank facility is located near Bob Hope Airport, just 11 minutes from Burbank and 25 minutes from central Los Angeles. In addition to data center colocation, we can provide dedicated office, staging space, shipping, meeting and break room space to fully support your IT organization needs. The data center ecosystem available via cross connects provides access to network and services providers, public cloud, private cloud and managed service providers. The facility is protected by multi-layer security, including exterior and floor level biometric measures, making infrastructure housed there as secure as it is agile.

MARKET BENEFITS

Three buildings totaling 206,402 sq/ft raised floor space and access to 29.5 MW of utility power

Facilities from Burbank to Irvine provide in-region site diversity ideal for deploying active / active highly available workloads

Customer community of 250+ media companies, XaaS providers, content providers and other large enterprises

Compliance with SSAE18 SOC-1, ISO 27001, PCI DSS, and NIST 800-53PE standards

Uptime Institute M&O Stamps of Approval

Connectivity to 12 unique network service providers and growing community of service providers

Solution deployment options include individual Secure Cabinets and dedicated Secure Cages

Full amenities including break rooms, conference rooms, Wi-Fi, crash carts, and work kiosks

HIPAA aligned

TECHNICAL SPECIFICATIONS

Buildings

- Two-story building adapted data center
- Building interior 90,000 sq/ft
- Raised Floor 15,357 sq/ft
- 12" and 24" raised floor

Security

- 24x7 video surveillance
- 90-day video storage
- Two-factor authentication required to access
- Biometric scanners and badge readers
- Entrance mantraps
- Ballistic paneling in lobby
- Bulletproof glass

Fire Detection and Suppression Summary

- VESDA provides early warning detection
- Pre-action dry pipe sprinkler system

Connectivity

- Copper and fiber optic cross connects
- Dual diverse fiber entrance facilities
- Carrier neutral interconnection area
- See www.cyxtera.com/data-center-services/data-center-locations/losangeles for complete carrier list

Reliability

- Uptime Institute M&O Stamp of Approval for operational excellence
- 100% Uptime SLA

Support Services

- Gold Support (remote hands)
- Structured Cabling
- Secure on-site spare and tool storage
- Office space

Certifications and Compliance

- SSAE18 / ISAE 3402 SOC Type I
- ISO27001
- PCI DSS 3.0/3.1
- NIST 800-53 PE
- Uptime Institute Management & Operations Stamp of Approval

Sustainability and Efficiency

- Wireless sensors
- Smart lighting

Amenities

- Free secure Wi-Fi
- Break room
- Food and beverage vending machines
- Crash carts and loaner tools
- Work kiosks
- Conference room
